Also, I did not expect that it comes with a freebie (the manga guide to sudoku) which is awesome and got me more excited to learn. :D Thank you so much @TheJapanShop :)Helpful?I was worried about not getting it in time to take to college, and contacted the sellers directly to see if they could ship it to my school instead. They got it to me, at home, within three days.Helpful?June 22, 2020Great quality textbook! One thing that I especially appreciate is that the lessons encourage you to start learning and reading hiragana and katakana immediately, as opposed to only using English readings of Japanese ("romaji") for a long period of time before getting to the letter systems like some books do. A fantastic addition to any beginner's Japanese learning library.Helpful?Customer Q&AGet specific details about this product from customers who own it.About our pricesWe're committed to providing low prices every day, on everything.
